

A world that's **UNITED** and **STRONG**. The best societies we can build. Communities working together, supporting one another, leaving need and poverty behind for good. We are in over 30 countries around the world, and for every project we do abroad, we do one right here at home. So, forgive us if we sometimes shout a little loudly - it's because we work with people in need every day and so we know how important it is to **UNITE** people to make this world what it should be: a place for **EVERYONE**.

Their vision:

- A sustainable world through empowered people and strong communities.

Their mission:

- To deliver short- and long-term interventions to needy communities with competence and compassion
- To assist with relief of poverty, health, education and emergency relief because of both man-made and natural disasters.
